

What do you wish for
this holiday season?

hope

Derick, 6th Grade

*Every 26 seconds a child
drops out of school...
7,000 kids everyday...
1.2 million every year.*

**For Pro-Vision's students,
education is hope for the future.**

Thanks to Derick's involvement in Pro-Vision, he won't become one of these statistics. Instead he's studying plant reproduction and pollination in Science Lab and applying what he's learning while volunteering at the community garden. He has an opportunity to be the first one in his family to graduate high school AND go to college.

As he develops and matures, Pro-Vision will continue to give him access to our year-round mentoring services, tutoring services, career and college readiness programs and a first-class education. We are committed to his future. We are committed to giving him hope.

Please contribute this holiday season. With your help, Derick will graduate high school, and go on to college. Your tax deductible contribution is a ***commitment to the community, an investment in our future, a gift of hope*** for Derick and over 300 other students in the Greater Houston community.

There's a saying that Pro-Vision's staff knows all too well, "*The light that shines farthest, shines brightest at home.*" We believe in possibilities, and we encourage our students to dream big. But it starts right here. And it starts with a little hope.

Give the gift of hope this season...*hope for today, hope for tomorrow.*

❧ *Happy Holidays* ❧

From the Pro-Vision Board and Staff

Give the gift of hope.
