

Dear Parents or Guardians:

It is an honor and privilege to address you as the new Superintendent of The Pro-Vision Academy. As your leader, I look forward to establishing a relationship of collaboration. I believe as a collective and collaborative team, we will make The Pro-Vision Academy one of the Charter Districts in the state. One of many goals, is to enhance the learning experience your child will receive from the dedicated teachers we have on campus.

Teamwork is the key ingredient to any successful organization, and with your help we will have a team that will empower our students emotionally, mentally, and socially. With the mounting demands being placed on our students to meet rigorous academic standards and to compete in a global society, we must engage in conversation in the coming months that will allow our students to compete in the 21st century workplace. Although preparing students for college is a key component to success, we also must begin to prepare our students to be career ready as well. I look forward to hearing from the community on how to make The Pro-Vision Academy a place where everyone is welcomed. Henry Ford wrote, "Coming together is a beginning, staying together is progress, and working together is success." I look forward to many successes as we strive for excellence.

In an effort to establish a tradition of effective parent communication, we will be updating our webpage periodically to keep you abreast of events and activities happening on campus. Please be on the lookout for periodic Parent Newsletters. The Newsletters will provide you with pertinent information concerning our campus. The school is a reflection of the community, and working together will be the "Pro-Vision Way."

I look forward to the beginning of our partnership as we strive to maintain a legacy of excellence.
