# The Pro-Vision Academy High School Comprehensive Needs Assessment

## **School Profile**

The Pro -Vision Academy High School has served, and will continue to serve, young people who are considered at high risk for failure, not only academically, but also in life. The high school serves approximately 195 students in grades 9 to 12. These are both academically and behaviorally at risk. The campus is located in Southeast Houston, in the Sunnyside neighborhood. This unique open enrollment charter school utilizes highly effective educational and counseling programs to provide students with the socio-educational support needed to break patterns of failure and despair and redirect them into a pattern of long-term success. The surrounding community consists of established businesses that donate various resources, supplies and support to the schools in an effort to assist in achieving designated goals.

In providing the best educational program possible, The Pro-Vision Academy High school embraces the district vision to incorporate innovative approaches to instruction by integrating distance and collaborative learning initiatives which impact life management, critical thinking skills, and career preparation tactics. Recruitment efforts will target students who may have been at a disadvantage as a result of directly experiencing one or more of the following:

- danger of dropping out or not completing high school;
- risk of academic failure, deficits, or skills; and
- negative peer group involvement.

The campus will also serve the students' families through a socio-educational program that includes: parent support groups, parent training, student community service initiatives, and community involvement in assisting the family.

The student population is 98.2% African-American, 1.8% Hispanic, 68% male, 32% female, with a low socioeconomic status of 82% and the at risk population is 81.1%. The instructional staff population is 80% African-American, 6.6% Anglo, 13% Hispanic, 66% male and 34% female with an average of 5 years of experience.

The overall mobility rate for the campus is estimated to be 25% with a drop-out rate of 2.6%. The average daily attendance rate for students is 93%. There were a total of 281 discipline referrals this year, which is an increase/decrease of 49.1% for the 2016-2017 school year. The high school currently serves 3 English Language Learner students. Currently, less than 6% students identified for 504 services, and the Special Education department serves 33 students (19%).

## **Special Programs**

At The Pro-Vision Academy High School the school-wide Title 1 program consists of parental involvement activities, extended day for math and reading as well as math and reading professional development for instructional staff. Our State

Compensatory Program (SCE) includes student mentors and supplemental instructions in math, science, reading and social studies.

## **Comprehensive Needs Assessment Process**

The Pro-Vision Academy High School High School needs assessment process is described below. The Shared Decision Making Committee (SDMC) formed subcommittees to evaluate the previous years' data. The committees reviewed program evaluations, survey results, and the following data: Common Curriculum Based Assessment, District Developed Benchmarks, STAAR summative reports, faculty and parent survey results, attendance data/trends for students and staff, and discipline data. Documentation of the process includes meeting minutes, agendas, sign-in sheets, copies of data reviewed and completed worksheets from the Region 20 CNA tool.

Committee members reviewed the data listed above to identify areas of strengths and needs. The data showed:

### **Student Achievement:**

#### Strengths

- Biology and Algebra 1 EOC Exams
- Embedded Tutorial Participation

#### Needs

- Provide student access to educational technology which will support literacy and STEM activities for Math and Science

- Decrease the achievement gap among all student populations.
- Provide Reading, Math and Writing support in all grade levels/all content areas.
- A viable platform to share information with parents pertinent to the enhancement of the academic experiences of their children.
- Appropriate remediation opportunities during the regular school year and summer school for students with disabilities.

### **Instruction, Curriculum and Assessment:**

#### Strengths

- Availability of DMAC to disaggregate student data by content and grade level
- Weekly scheduled teacher training/collaboration time
- STAAR Review materials for enrichment and regular classes.

#### Needs

- Parental support to increase student participation in tutorials beyond the school day
- Support systems for students to excel and improve achievement in core courses,
- Incentives for student participation in Saturday tutorials
- Teacher training in vertical alignment
- Literacy and math programs for campus implementation
- Alignment of classroom/report card grades and performance on district benchmarks and state assessments

## **Family and Community Involvement:**

### Strengths

- Participation with outside businesses
- Parent participation in ARD meetings
- Parent attendance and support for school activities/athletics

### Needs

- Outreach Coordinator
- Increase parental involvement in parent academic meeting(s)
- A parent literacy program
- Incentives for parent participation in campus academic activities
- Increased media usage for community and parental involvement

## **Staff Quality:**

### Strengths

- Positive campus climate
- Administrative recognition of staff accomplishments/milestones

### Needs

- On-going professional development
- Teacher Mentoring Program
- Professional development plan to support district initiatives

## **School Culture and Climate:**

### Strengths

- Parent participation in open house, team meetings, school performances, weekly meetings, and district events.
- Student recognition for honor roll, fine arts, and athletics
- Teacher unity and philosophies aligned with the school mission.

### Needs

- Promote college awareness/readiness
- Conduct Student Surveys for grades 7 - 8
- Increase participation in fine arts, athletic programs, and extra- curricular activities.
- Reduce disciplinary referrals

## **School Organization:**

### Strengths

- Structured Environment
- Strong administrative support
- Regularly scheduled staff meetings
- Extra-curricular activities

### Needs

- Department/grade level chairs to lead vertical alignment meetings and assist with finding areas of need.
- Increased focus on math, reading and writing skills in planning time allotment for class schedules
- Use of data from district benchmarks to evaluate effectiveness of student interventions

## **Demographics:**

### Strengths

- An emphasis on inclusive instruction for Special Education students
- Counseling services to address the social and emotional needs of at risk youth

### Needs

- Increased supervision of implementation of accommodations and inclusion services for Special Education students
- Targeted instructional support for ELL students
- Increased monitoring of RtI interventions
- Additional Websmart and DMAC training for teachers

## **Technology:**

### Strengths

- Interactive boards/projectors
- STAAR Intervention Lab
- Laptops for teachers
- Calculators
- Learning pads

### Needs

- Additional training to prepare teachers to integrate technology in classroom instruction
- Additional Web-Smart training for teachers
- Additional computers for students' instructional use

## **Summary of Identified Needs and Related Strategies**

*The Pro-Vision Academy High School has a need for instructional support in all content areas (Reading, Writing, Mathematics, Social Studies and Science). An intervention system will be developed which includes supplemental instruction for all students who are struggling in the content area subjects.*
